

Iteration 4

Joey, Hannah, Heidi, Paul

Iteration 5 Features

- **Map Tracking For Each Vice**
- **Adding more statistic displays**
- **Implementing more user friendliness**
- **Notifications**

Mentor FeedBack

We showed her our modularization, testing, and new feature.

- **Looks good**
- **Nice user deign flow**

Client FeedBack

Likes the new overall Graphs but wants to see much more.

Really wants us to focus on the map location next

Overall he likes how everything is starting to come together.

Business Requirements

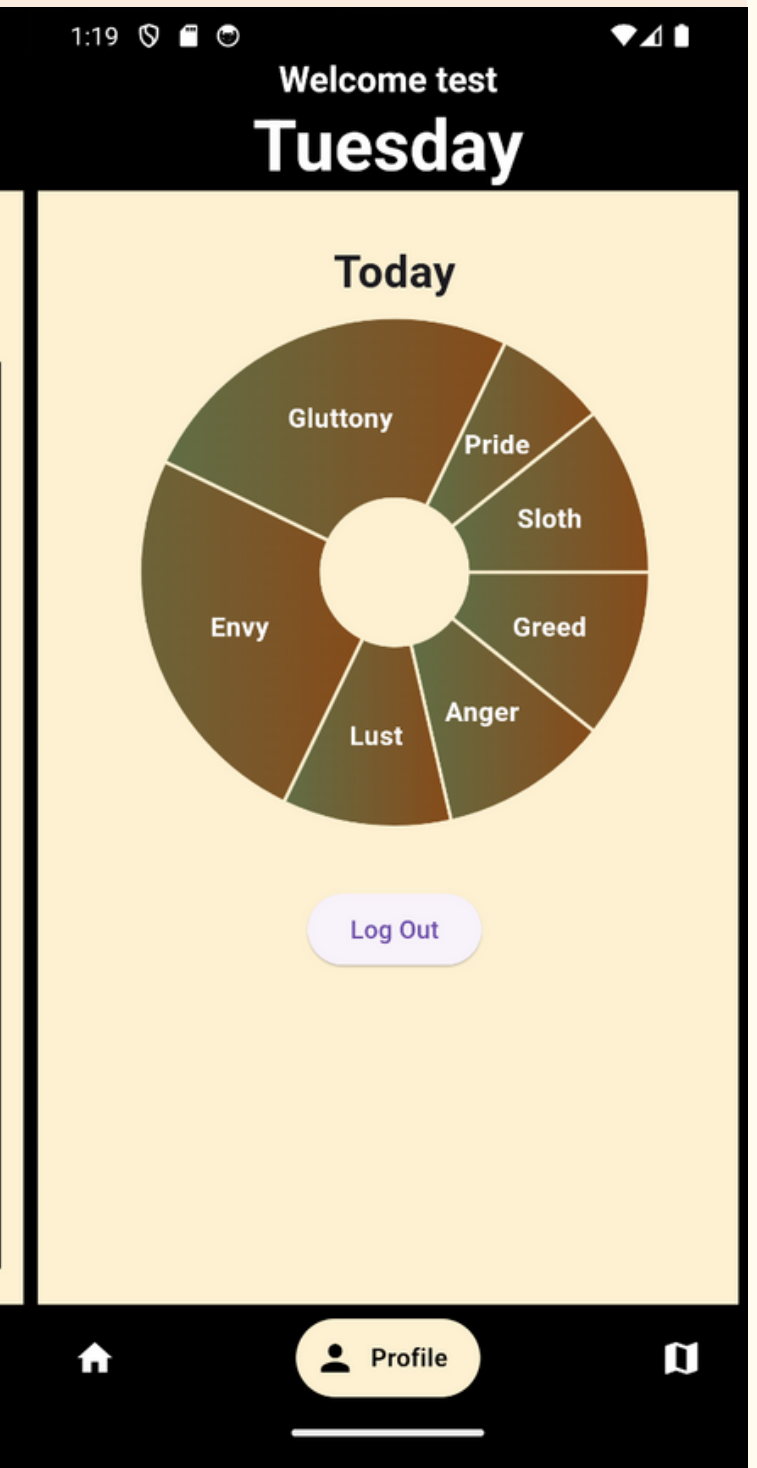

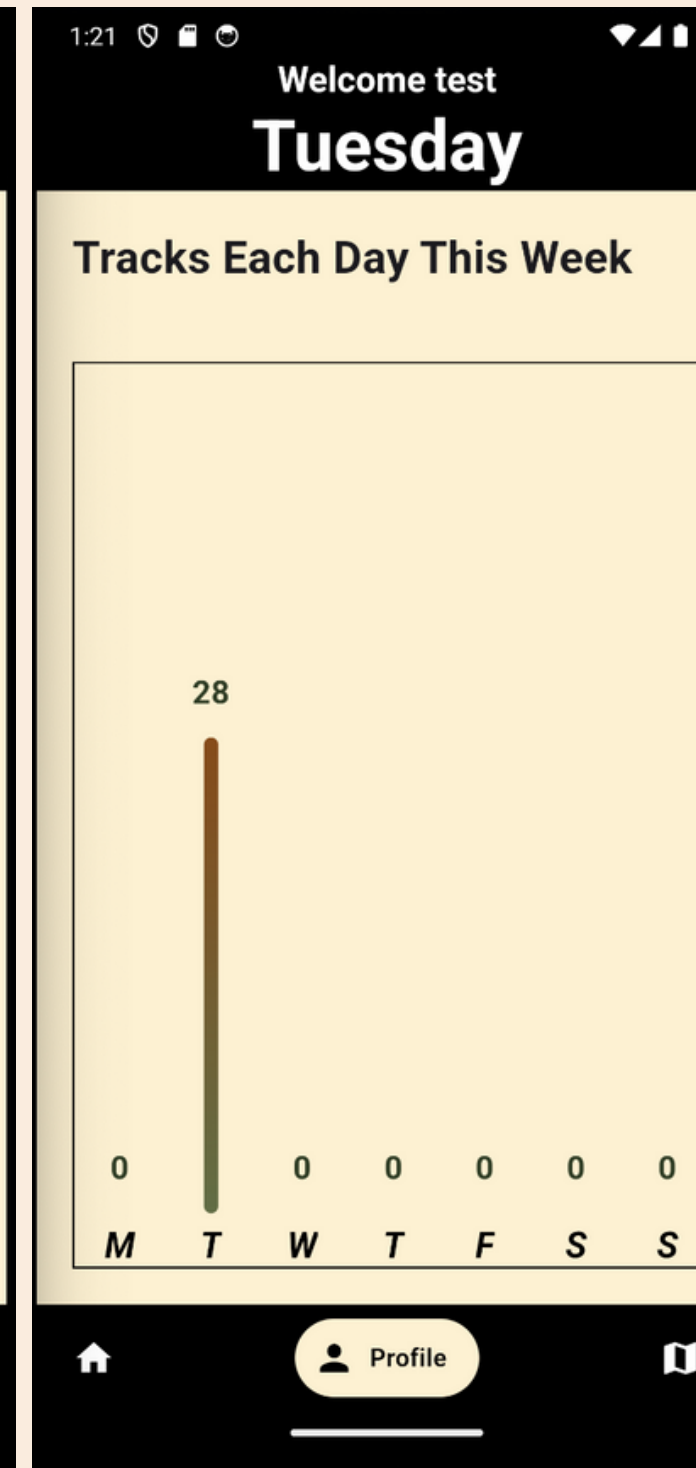

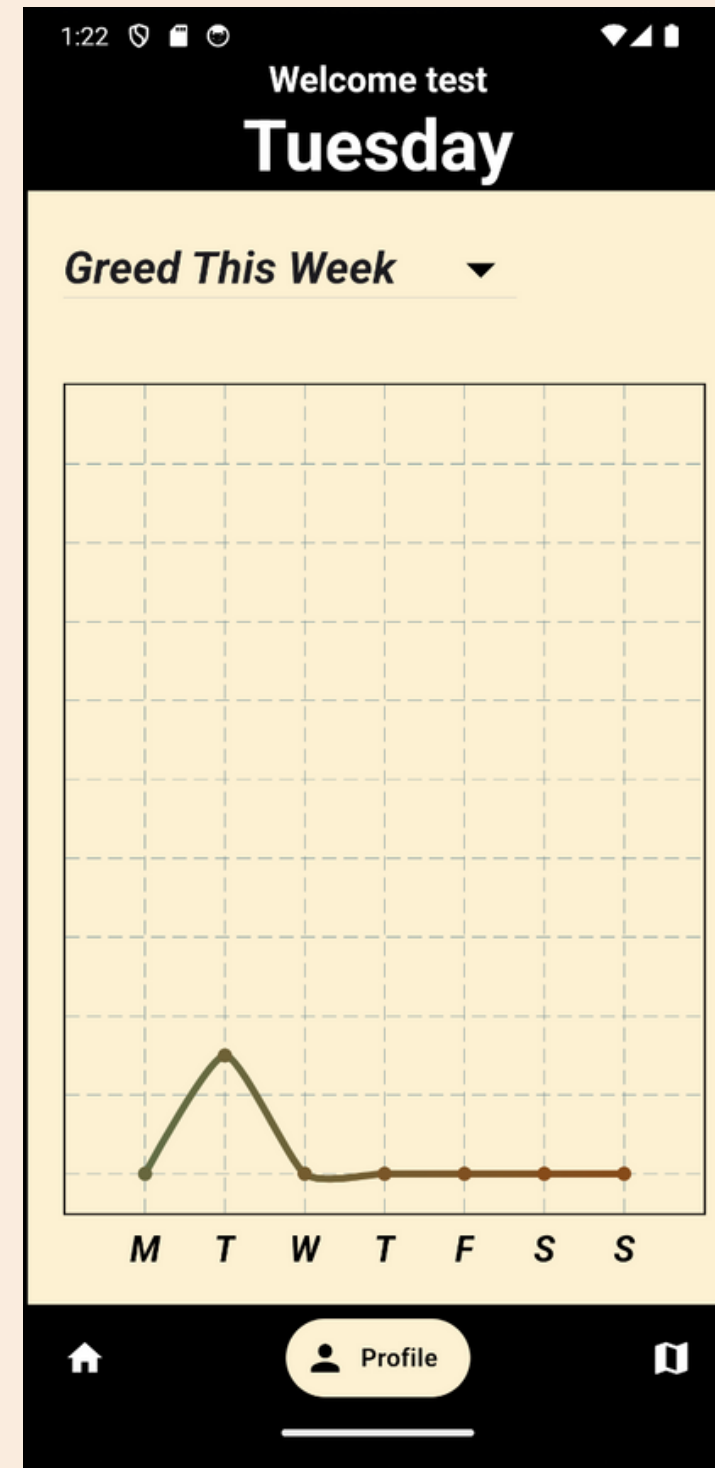

BR4 Let views see their vice statistics.

This is a client requested requirement that lets the user know how well, or bad you are doing with vices is critical to learning from your behavior.

Features Added

Graphing Statistics

- Pie Graphs
- Bar Graph
- Line Graph

What We Have Done

Joey
